Customer Reviews

Doesn't explain clearly how to build fences! Talks more about styles and doesn't Completely how to build or layout lacking vital details. Or at least very vague. Would not purchase again!

It does have some good information. None of it is bad in fact. It just isn't the full font of knowledge I would have liked.

This is an eaasy read for a beginner. It give an overview of creation and mending fences. As always...Better homes and Gardens does it again.

My husband has a small fence company, he found a few new ideas in this book. It would be helpful for " do it yourselfers".

Very helpful.
