Customer Reviews

Am very glad to have stumbled across this book at my local cookbook shop last year. While it doesn't feel like one of those amazing cookbooks associated with a celebrity cook, it does impart a fun lightheated feeling and makes me smile inside. I wasn't sure if the food would be yummy but all three dishes I cooked last week were most enjoyable, quick to make and subtly different from the tastes I knew. It feels like an unassuming little book but could become a gem in my library yet. Am scouring it again to see what other little adventures I can embark on next. A thank you to all involved in making this book a reality.

I bought this book for my son, who is a big Moomin fan. Before I gave it to him, I looked through it and found enough whimsically illustrated food material and unusual recipes to keep him happy. On Christmas day, he perked up considerably on getting a Moomin gift and is busily planning a Moomin meal. A good buy. The only drawback: be prepared to change all the measures from metric system to U. S. measures. Sort of a drag!

I absolutely adore Moomins, and this book did not disappoint!! The recipes are tasty (we've certainly tried a few), and the illustrations and anecdotes are just what I would have hoped for.
