QuickBooks 2016 All-in-One For Dummies
Simplify your small business accounting with confidence! Managing the books for a small business can be a challenging task—just ask any of the countless business owners and managers who have spent hour after hour hunched over multiple spreadsheets. QuickBooks 2016 All-In-One For Dummies takes the pain out of managing your small business’ finances through one essential reference. This reference covers virtually everything you need to take control of your business and guide your company’s financial processes in the right direction. QuickBooks is a trusted resource for small businesses because its software is designed to help you handle your financial and business management tasks efficiently and effectively. With QuickBooks, you can establish fundamental accounting practices that help keep your company successful and healthy. Cover the basics, including understanding double entry bookkeeping, planning and setting up a QuickBooks accounting system, and loading master file lists. Create a dynamic accounting environment by adding customer invoices, vendor payments, inventory tracking, cash management, and bank account information. Establish DIY payroll processes, and prepare essential financial statements and reports. Manage and balance financial needs through activity-based costing, project and job costing systems, ratio analysis, economic value added analysis, capital budgeting, budget building, business plan forecasts, and more. QuickBooks 2016 All-In-One For Dummies is the guide you need to take care of your small business’ books with confidence!

Customer Reviews
EXCELLENT BOOK! HOWEVER, WATCH OUT, BUYER BEWARE, IF YOU WANT TO LEARN ABOUT QUICKBOOKS ONLINE THIS BOOK WILL NOT HELP YOU! Please read "intro" to book to verify that my statement is correct....see page 1 of book!

Unfortunately, it does not contain the industry-specific information I was looking for. Therefore, it was not helpful to me. It would be great for those who are just beginning to use it and those without much bookkeeping knowledge.

This book has everything that you would need for Quickbooks and even gives basic accounting directions as well if you have no background in accounting.

I was new to the QB world, and this book has been a handy goto guide that I have used several times.

Dummies books are always great and simple to understand. Great purchase.

A little hard to follow

Do your self a favor and look at YouTube videos it helps a lot more than this book

The "For Dummies" are super. I use it for reference. I have already designed a new invoice. This book helped make it so simple.
