**Synopsis**

Build dynamic Web sites using ColdFusion Markup Language (CFML). ColdFusion includes a server and a development toolset designed to integrate databases and Web pages. Thousands of companies worldwide including several Fortune 500 companies are using this software to build their businesses online. In this book, users will learn all concepts needed to build Web sites using ColdFusion and supporting technologies like HTML (Hyper Text Markup Language), SQL (Structured Query Language), and relational database systems like Microsoft Access.
