Normal Modes And Localization In Nonlinear Systems

Synopsis

The nonlinear normal modes of a parametrically excited cantilever beam are constructed by directly applying the method of multiple scales to the governing integral-partial differential equation and associated boundary conditions. The effect of the inertia and curvature nonlinearities and the parametric excitation on the spatial distribution of the deflection is examined. The results are compared with those obtained by using a single-mode discretization. In the absence of linear viscous and quadratic damping, it is shown that there are nonlinear normal modes, as defined by Rosenberg, even in the presence of a principal parametric excitation. Furthermore, the nonlinear mode shape obtained with the direct approach is compared with that obtained with the discretization approach for some values of the excitation frequency. In the single-mode discretization, the spatial distribution of the deflection is assumed a priori to be given by the linear mode shape $\hat{\phi}_n$, which is parametrically excited, as Equation (41). Thus, the mode shape is not influenced by the nonlinear curvature and nonlinear damping. On the other hand, in the direct approach, the mode shape is not assumed a priori; the nonlinear effects modify the linear mode shape $\hat{\phi}_n$. Therefore, in the case of large-amplitude oscillations, the single-mode discretization may yield inaccurate mode shapes.

Book Information

Hardcover: 300 pages

Publisher: Springer; 2001 edition (January 31, 2002)

Language: English

ISBN-10: 0792370104

ISBN-13: 978-0792370109

Product Dimensions: 7 x 0.7 x 10 inches

Shipping Weight: 2 pounds

Normal Modes and Localization in Nonlinear Systems Protocol for Wireless Localization Systems:

Communications Protocol for RF-based Wireless Indoor Localization Networks
Obstetrics: Normal and Problem Pregnancies, 7e (Obstetrics Normal and Problem Pregnancies)
Nonlinear Oscillations, Dynamical Systems, and Bifurcations of Vector Fields (Applied Mathematical Sciences)
Nonlinear Systems Enhancing Indoor Localization with Proximity Information in WSN: A novel way of enhancing indoor localization in wireless sensor networks
Localization in Wireless Sensor Network: An enhanced composite approach with mobile beacon shortest path to solve localization problem in wireless sensor network
RF-based Indoor Localization in Sensor Networks: Localization Using Signal Fingerprinting
Sigma Delta Modulators: Nonlinear Decoding Algorithms and Stability Analysis (The Springer International Series in Engineering and Computer Science)
The Nuer: A Description of the Modes of Livelihood and Political Institutions of a Nilotic People
Banach Space Theory: The Basis for Linear and Nonlinear Analysis (CMS Books in Mathematics)
Fretboard Theory: Complete Guitar Theory Including Scales, Chords, Progressions, Modes, Song Application and More. The Guitar Grimoire: A Compendium of Formulas for Guitar Scales and Modes
Linear and Nonlinear Programming (International Series in Operations Research & Management Science)
Researching Dance: Evolving Modes of Inquiry
Important Developments in Soliton Theory (Springer Series in Nonlinear Dynamics)
ACCIDENTALS HAPPEN! A Compilation of Scales for French Horn
Twenty-Six Scales in All Key Signatures: Major & Minor, Modes, Dominant 7th, Pentatonic & ... Whole Tone, Jazz & Blues, Chromatic
ACCIDENTALS HAPPEN! A Compilation of Scales for Bassoon
Twenty-Six Scales in All Key Signatures: Major & Minor, Modes, Dominant 7th, Pentatonic & ... Whole Tone, Jazz & Blues, Chromatic
Location Determination within Wireless Networks: Dynamic indoor/outdoor Localization Systems: Algorithm Design, Performance Analysis and Comparison Study
Workbook and Lab Manual for Sonography: Introduction to Normal Structure and Function, 4e
