## Customer Reviews

The first thing to know about this book is that the title is not accurate. The houses in this book are all kinds of styles. I think there are more European style homes than Southern homes. Second thing to know is that most of these plans are for large, luxury homes. Most of the plans feature open floor plans, and downstairs master suites. Though these houses aren't my style, I wouldn't complain about it if the title had been more accurate. I was expecting charming, Southern houses with wrap-around porches and other charming details. That's not what this book is.

Good resource for home plans but mainly for large homes.

Good condition.

My son was constantly checking this book out at the library. Glad I found it so he could have it. Ty
