## Customer Reviews

The bulletin covers the basic equipment needed (most, if not all of it, is already in your kitchen), base ingredients, which herbs to use, homespun alchemy, making medicinal wines, medicinal vinegars, bittersweets, syrups, and sugar-free syrups. Recipes included. What I like best about these Country Wisdom bulletins is that they provide concise information on a single subject. No wasted space.

I have purchased several of these booklets from the Story Country Wisdom series. They by-and-large are ALL good and I have not been dissatisfied with even one of them. They are simplistic in that they are easy to read and understand, yet are very useful. Sadly much of the old art of medicines/home remedy styles, food preparations such as drying foods, and much other preparedness and survival knowledge have been lost with time. Story has preserved alot of it and is passing it on to us...and if I may add...at what I believe is a fair price. I say buy up with confidence.

Love these books. They are all neat and fun to try. There is also a huge book of Storey country wisdom that incorporates all the little ones.

I have no desire to start a home brewing system, so this is just the right size and bit of info for a beginner like me. I tend to have sinusitis and allergy-like symptoms after drinking wine, so I'm hoping that doing a batch "organically" might prevent that. If it doesn't work, I'll just make vinegar!

Joyce Wardwell's knowledge of herbal use and how to prepare the raw herbs comes sparkling through once again in this excellent little book. It is easy to read, easy to use, and a delight for me to pass around to my friends.

I get these pamphlets for the true from scratch information. It would have take just a paragraph or two to explain how to make a mother, but I had to spend several hours on the internet instead. The point for me is to be able to use the info without a fancy wine shop and the internet. Otherwise a good read.

This book did not offer a great deal of info but for the money, you get a really good idea as to whether or not to pursue the subject further.

very basic and brief info, handy to have around; part of any good basic do it your self or get back to basics library,
