Customer Reviews

One of Gaffes older books, I was happy to find it here used. Lots of beautiful color and inspiring photographs, a great book to add to your crafting library.

The title says for itself. I love this author for his talent and the hard work. Glad to have it.

the seller is prompt and honest, the book is a feast for the eye even for those who are not quilters.
the price was more than right

Very disappointed in the shape this book was in. The entire cover had come unglued from the spine of the book and it was a mess. I should have sent it back, but I didn't want to bother. Who ever this seller is was not truthful in the shape and quality this book was in.
