Customer Reviews

This is a fantastic introduction to Dutch Oven Cooking. Lots of info about how to select and care for your dutch oven (and some cool history behind it), and LOADS of great recipes for every taste. This is a one-stop-shopping book for Dutch ovens!-----Dan DeFigio, author of Beating Sugar Addiction For Dummies

Although this is my first time to encounter Dutch oven cooking cookbook, I found the recipes really

interesting and exciting and I am sure they would most likely result to delicious meals. This is especially helpful for beginners as the recipes are simple and easy to follow thanks to a detailed presentation to each recipe.

So many great recipes in this book. I can't wait to try them all! Who knew you could make pizza, soup, and even monkey bread in a dutch oven? I've had one lying around for years and now I can't wait to start using it! Thanks.

Dutch Oven Cooking: Easy One-Pot Meal Recipes Starts out with the history of the Dutch Oven over the years and how Americans adopted it for their own use. Basically it's a meal made in one pot in the oven for a short time. How to choose one and how to use them outside and how to care for the pot. Each recipe comes with servings, prep and cook time. List of ingredients along with detailed directions on how to make the dish. No picture but has some nutritional information: fat is listed but not which of the 4 kinds. Some recipes you should be able to substitute for healthier choices. Other works by the author are highlighted at the end.

The recipes look good and the information on Dutch ovens is handy. I was hoping there would be photos to accompany the recipes, but the only photo is on the front cover. I am looking forward to trying these recipes.
