Many of the examples are unique to this text and serve as refreshing changes from the tired war stories that often appear again and again elsewhere." - Scott Swan, The College of William & Mary "The authors' tone and style shall appeal to our students. They write in a clear and comprehensive style. . The authors have researched well and presented appropriate and interesting examples to illustrate the text. Dhawan, Concordia University/Montreal

It reads very easily, and the concepts are easily understandable. The information is well-rounded, covering all aspects of business and how they relate to global marketing. This textbook was required reading for a graduate global marketing course.

It's a textbook...pure and simple. There isn't anything too exciting and it isn't made for reading cover to cover. It does bold key terms but there is no glossary. The index is easy to use.

Really bad condition. There is writing all over it and also the highlighting does not make since so it is hard to read. The cover paper and is ripped, about to fall off.

The book was a little tore up when I got it and there was quite a bit of highlighted material. I was expecting a less beaten book, but it worked just fine.

Great insight and content. Strong information, concepts and backing. Not formatted well for a textbook, not easy to read quickly.
