Embroidering With Silk Ribbon

Synopsis

Emphasis here is on a mastery of the basics; no pictures and text are spared to ensure that stitchers clearly understand the material needs and the more than 22 stitches, a broader array than the regular running, couching, and lazy daisy varieties. A dozen or so projects are presented...including a shopping list for...embellishments and a paragraph or two filled with ideas. These pages are meant to instruct and inspire. • Booklist.

Book Information

Paperback: 160 pages

Customer Reviews

One of the most beautiful, instructional and most complete book on Silk Ribbon Embroidering I have seen. The illustrations and techniques are amazing and I am so very happy that I chose this book. There are books for the beginner with very limited stitches and flowers and they are very helpful as not to over power the beginner but I believe that a beginner would get so much from this book. This book takes you from beginner to a more advanced level. If I could only have one Silk Ribbon Embroidery book, this book would be my choice, hands down. The author, Donatella Ciotti has the art of silk embroidery up on a level of "Masterful". This book is one which I would recommend to anyone who is thinking of taking up this beautiful, delicate art form. The book contains everything such as, listing and illustrating all the materials in which you would need, the different ribbons, needles, fabrics, just everything in this one remarkable book. A big "thank you" to both the author, Donatella Ciotti and for bringing this book to all of us who love the art of Silk Ribbon Embroidery.

This book is absolutely great and extensive on instruction, ribbon and fabrics. This is probably the

only book you will need to get your started and keep you stitching.
