Customer Reviews

If you want to try your hand at textile Arts this is a good book to start with. Page after page of beautiful ribbon flowers are demonstrated meticulously with diagrams, stitching instructions and photos. As the author says in the Introduction, "For this text, I've tried to develop a fuller and more consistent instructional language both in illustrations and in words, giving the techniques easy nicknames where possible. The 'Invitation to Use this Book,' which follows, will get you started easily, answering your most basic questions. But don't skip the technical sections; they're filled with tips and tricks." The first chapters after the Invitation chapter start out with simple projects. You'll practice creating simple baby rosettes and thereafter the projects introduce more intricate and ornamental flowers, stems, leaves, stamens and buds. There are plenty of diagrams on each page as well as photos - many of them full-page. For example, you'll start making a basic scalloped rosebud. From there you'll learn to embellish it such as a Scalloped Rosebud with Knots or create a Hatpin Rose, Flatbud or Carbochon Rosebuds with One or Double Rolled Edges. You'll learn to create a Dahlia. Or create full bloom roses with variations such as budded finish, off-center, off-center w/ zig-zag ruffles, internal petals and separate petals. And these are only a select few flowers and techniques you'll learn. Other chapters show various ways of attaching your finished flowers to fabric with other chapters on creating pompoms, knots or various lazy daisy designs,

pansies, fushias and daffodils. Leaves, stamens and buds receive just as much treatment as the flowers and help fill out the designs.
