Before I even get started, I have to give fair-warning of my infatuation with this book, not for just its contents, but for the fact that everything surrounding this book, just oozes the romance of Paris, and it will completely embrace hopeless romantics, such as myself, and the rest of the Francophiles in the world.While I know that Paris isn’t the only city in France, just as New York isn’t the only city in the United States, I have to admit when one thinks of France, it is an automatic thought process to think Paris. That being said, "Laduree" is one of the reasons that Paris has been given this

geographic pedestal.The joy, and the reason for above warning of infatuation, began when the book arrived at my doorstep. For those unfamiliar with Laduree, it is a pastel-colored bakery/tea salon, and its trademark is the soft, sherbert colors of its walls and papers, and presentations of its baked goods (but goods which now extend to personal luxury products as well). First of all, this surprisingly heavy book is encased in a lovely pistachio green box printed with a raspberry print. Once you lift up the case cover, you are greeted with a sheet of a pale plum tissue paper that wraps the book like a light shawl on a somewhat cool spring evening.The covers of this gem are suede-like, and in the same charming pastel green color. This fact helps you to be impressed by the embossed gold print on the cover, with the same gold gilding found on the top and sides of the pages, thereby making me ever so gently remove it from its tissue cradle. This particular version has been translated into English though you can purchase the French version if you desire.
